About Metacon AB (publ)

Metacon AB (publ) develops and manufactures energy systems for the production of hydrogen, heat and electricity. The products are based on a patented technology that produce hydrogen through reforming of biogas or other hydrocarbons. The hydrogen can be used in the transport sector, industry and the real estate sector with a better environment and climate as a result. Through its associated company Water2H2, the market is offered systems and solutions for the production of hydrogen through electrolysis.
